The Courtney Lynn Blakeslee Foundation was created 8 years ago to provide financial support to children of parents who either are terminally ill with or passed away from cancer. All proceeds are used to provide these children with the opportunity to enjoy some of life's simple pleasures without placing additional financial strain on parents and caretakers

Here is a recap of what your generosity has done over the past 8 years: Families have enjoyed a Broadway show & shopping spree in New York City, a vacation at Sesame Place, swimming lessons, karate lessons, going to a Knicks game, a WWE VIP experience, hockey games, sporting event playoff tickets, a Disney World experience, a race car bed, Mac computers and so much more. We have also sent children in our Foundation to Camp Kesem, which is a camp that recognizes and embraces the often-overlooked population of children affected by a parent's cancer. We were also able to ensure that families experienced the magical Christmas they deserved. Our foundation has also provided hotel accommodations in NYC so that an entire family was able to be with their loved one during treatment. Lastly, this past summer, we were able to help a young woman purchase an identical car that her deceased father used to drive.
